Within, the interior receives natural light through its large windows, and with fresh paint on the walls, tiled underfoot downstairs and brand-new carpets upstairs, this home provides a colour palette that creates an undeniable sense of serenity.

The ground floor offers an open-plan living area with a kitchen and dining, and space to move and relax. A sliding glass door offers a seamless transition to the patio, which provides a spot that is as perfect for entertaining as it is for quiet relaxation.

Back inside, the kitchen is the perfect base of operations
